DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by US 5,408,052, granted to Inaba et al. (hereafter Inaba).

Inaba discloses, referring to figure 1, a flexible PWB comprising a flexible insulating substrate (1) first wiring (2), second wiring (4), first and second protecting films (7), connected to the substrate by an adhesive (6), a terminal portion (3), wherein the protecting films are thinner than the substrate (see col. 2, lines 50-60) [claims 4, 18]

Allowable Subject Matter

Claims 5 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 4 and 18 have been considered but are moot in view of the new ground(s) of rejection.
